Cyber Insurance Proposal Form: Rating Addendum

CYBERUW-IQ-1.1 Addendum · attach to CYBERUW-IQ-1.0 · pricing model UNDERWRITING_MODEL_V2

Complete this addendum with the full proposal form. It asks the facts the premium model rates on that the 1.0 form does not ask directly. Where a question already exists in the 1.0 form, it is referenced, not repeated. Answer "Don't know" rather than guess: an unknown control is priced the same as a missing one, but a wrong answer can void cover (R8).

Section R1–R4 · Classification

Ref	Question	Response
R1	NIC 2008 code of the main business activity (at least the 2-digit division; 4 or 5 digits if known). *The division sets the rating sector, for example 62 computer programming, 86 human health, 47 retail trade.*	
R2	Annual turnover for the last full financial year, in ₹ (see also B1.1).	₹
R3	Years in operation (see also A3, year established).	
R4	Is the company regulated by the Reserve Bank of India or the Securities and Exchange Board of India? *If yes, name the regulator and the registration or licence number.*	☐ Yes ☐ No

Section R5 · Material incidents

A material incident is any cyber incident in the last 3 years that caused a financial loss above the retention applied for in Section P, or required a notification under the DPDP Act 2023 or to CERT-In, or involved a decision on whether to pay a ransom.

Ref	Question	Response
R5.1	Number of material incidents in the last 3 years.	
R5.2	For each one: date, type, loss in ₹, and whether it was notified (also describe in Section O).	

Section R6 · Priced security controls

These are the controls the premium depends on. The letter in brackets is the 1.0 section with the detailed questions. A control evidenced by the monitoring agent or an independent report (SOC 2 Type II, ISO 27001 SoA, VAPT, scanner export, restore-test report) earns its full credit; a "Yes" without evidence earns part of it.

Ref	Question	Response
R6.1	Multi-factor authentication enforced for remote access, email and privileged accounts (F)	☐ Yes ☐ No ☐ Don't know
R6.2	Endpoint detection and response running on managed endpoints (H)	☐ Yes ☐ No ☐ Don't know
R6.3	Backups that have been restore-tested in the last 12 months (J)	☐ Yes ☐ No ☐ Don't know
R6.4	Critical vulnerabilities patched within 7 days (I)	☐ Yes ☐ No ☐ Don't know
R6.5	High-severity vulnerabilities patched within 7 days (I)	☐ Yes ☐ No ☐ Don't know
R6.6	Endpoint privilege management: local administrator rights removed or controlled (F)	☐ Yes ☐ No ☐ Don't know
R6.7	Hardening baselines (CIS or equivalent) applied; no internet-exposed RDP/SMB (E)	☐ Yes ☐ No ☐ Don't know
R6.8	Central logging with alerting reviewed by a SOC or SIEM (H)	☐ Yes ☐ No ☐ Don't know
R6.9	Phishing simulation for all staff at least once a year (N)	☐ Yes ☐ No ☐ Don't know
R6.10	Email attachment sandboxing, with SPF, DKIM and DMARC enforced (G)	☐ Yes ☐ No ☐ Don't know
R6.11	A written incident response plan, exercised in the last 12 months (N)	☐ Yes ☐ No ☐ Don't know
R6.12	Full-disk encryption on endpoints and encryption at rest for data stores (C)	☐ Yes ☐ No ☐ Don't know

Section R7 · Payment verification (not priced)

Ref	Question	Response
R7	Are payment-instruction changes and new payees verified by a call-back to a known number, or by dual approval, before any funds are sent? (see also M4) *Recorded for underwriting and claims; no published effect size exists yet, so it does not change the premium.*	☐ Yes ☐ No ☐ Don't know

Section R8 · Declaration

I declare that the answers in this addendum and in the proposal form are true and complete to the best of my knowledge, and that I have not withheld any material fact. I understand that a false statement, or the non-disclosure of a material fact, may void cover from inception, including cover for any claim

arising from the matter misstated. I will tell the insurer promptly if any answer changes before the policy is bound.
